ABOUT THE TEAM

Russ Hines began his drag racing career at Albuquerque Dragway on a Kawasaki drag bike in 1989. Records show that over two years, Hines consistently placed as a winner and runner-up in the bracket classes. Since the birth of his new race team, RH3 Racing, in 2008, he has been the Crew Chief/builder on three junior dragsters driven by his children: Nick, Chris, and Victoria. The team had enormous success in the junior dragster ranks, such as A runner-up finish at NHRA's Western Conference Finals, four Albuquerque Dragway track championships, two Southwest Drag Racing Association (S.W.D.R.A) championships, an NHRA New Mexico state championship, and several other top finishes and awards among drag racing's finest competitors.

In 2015, Russ built a 1995 Firebird Formula to compete in bracket racing across the Southwest. He has experienced a great deal of success behind the wheel.

CONDENSED HIGHLIGHTS OF PREVIOUS YEARS

OUR GOAL

We are looking forward to another successful season in 2026. With plans to compete across the southwestern United States in both NHRA and IHRA divisions. Our goal is to compete and win at the highest level of bracket racing, while promoting and growing our team and marketing partners, both on and off the racetrack. We look forward to the chance to represent your brand and to developing a successful partnership with RedLine Oil!
